Montmirail, September 15<sup>th</sup>, 2009

Dear Customer,

We hereby certify that to the best of our knowledge the **AXON'CABLE LVDS FDC100®** products do not contain any restricted substances as listed in the following European Directives :

- **2000/53CE** (18th September 2000), applicable since 1st July 2003,
- **2002/95CE** (RoHS, 27th January 2003), applicable since 1st July 2006, taking into account the cancellation of the exemption #9.a "Deca-BDE in polymers" from 1<sup>st</sup> July 2008.
- **2003/11/CE** (6th February 2003), applicable since 15th August 2003.
- **2006/122/CE** (12<sup>th</sup> December 2006), applicable since 27<sup>th</sup> June 2008.

As far as we know, the manufacturers of our raw materials do not add intentionally any of the substances listed in the above mentioned documents during the manufacture of their products.

Nevertheless, we do not systematically carry out analysis of our products and we do not require such analysis from our suppliers.

If such substances were present however, we are confident that their concentrations would be lower than required in the Directives.

Best regards,

Béatrice DECUY  
Deputy Engineering Manager
